

EV-GU10-ML-6W-D-W

Introducing the NEW MONO lens range of GU10 lamps.

The MONO lens GU10 lamp is specifically designed as a replacement for your traditional halogen 240V lamps. It's as easy as removing the standard GU10 lamp and replacing it with the NEW MONO lens GU10 lamp. The NEW Mono lens will look almost exactly the same as what you have just replaced.

The MONO GU10 lamp incorporates the latest Sharp COB (Chip on board) LED which is then matched with a specifically designed heat sink to disburse heat away from the LED. The Mono lens GU10 is also fully mains dimmable with most leading brands of dimmers.

This is the perfect lamp for areas where light levels are not critical or where a high quality budget lamp is required.

3 Year Replacement Warranty
