- Contemporary art deco style
- Matte white opal mouth blown glass
- Provides a soft, diffused light

The beautiful design of the Contina pendant completes the Contina series with carefully selected details that make the series really stand out. The light frame is completed by a spherical opal white glass ball that hides the light source and spreads a soft glare-free light into the room. The slim design ensures that the pendant does not take up any unnecessary space in the room.

The combination of brass and opal glass creates a glamorous and modern design expression.

The glass in this lamp is mouth-blown and has been individually hand crafted. Due to this unique process, air bubbles may appear in the glass and the thickness of the glass can also vary. This gives the glass its character and vivid appearance.
