"Fold a sheet of paper, place a bulb behind it - and you have a lamp." Although reality is not that simple, designer Bønnelycke MDD wants the light to appear as if it is. The magnetic shade makes the installation simple and the design distinct without visible screws. The light shines up and down, and the four included light patterns change the light based on desire and personal style. This product is part of our "Designed For Seaside" range, crafted with a unique surface treatment and paint to withstand even the harshest coastal weather conditions.
