-  **High performance cooling in stylish designer finishes** means you can enjoy powerful, high-velocity cooling without sacrificing on style. Stay cool in style with the all-new Arumi designer range.
-  **Tried and true AC motor technology** with an AC silicone steel motor to provide the high torque and power needed to spin the aerodynamic aerofoil blades, for effective cooling when you need it.
-  **Moulded aerodynamic blades** are crafted from polymer (a high-grade plastic) which are durable, easy to clean as well as being safer and quieter than metal blades.
-  **17W Dimmable LED Light Kit** is available to add to the Arumi ceiling fan, for those times you need your ceiling fan to also be a light source.
-  **Enjoy whisper-quiet cooling**, thanks to the premium polymer blades, so you can relax and stay cool with less wind noise on those hot Australian days.
-  **Perfect for both Indoor & Outdoors¹** so you can maintain your decor style from your living room through to your alfresco outdoor area.

¹ Pewter finish is recommended for indoor use only
