

FRM86

DIMMABLE CEILING FAN REMOTE

The FRM86 is a RF remote controller suitable for use with most ceiling fans with an AC motor. It can be used with fans with or without light and has a light dimmer.

- Fan OFF
- Fan ON (HI / MED / LOW)
- Light ON / OFF / Dimming*
- User adjustable minimum brightness to suit specific lamps and/or customer preferences
- Fan and light delay off timer
- Suitable for most brands of ceiling fans with AC motor
- Light last memory function
- Easy pairing for quick setup**
- Battery included
- Wall bracket included
- 12 months warranty

PACKAGING	
Packaging Size	90 x 55 x 140 mm
Packaging	Colour Box
Gross Weight	217 g
Net Weight	190 g

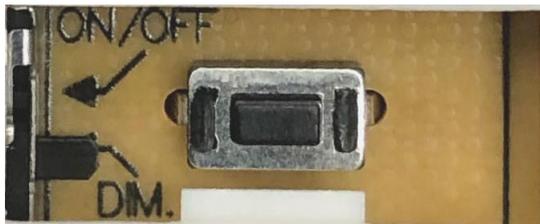

PRODUCT TECHNICAL SPECIFICATIONS	
Rated input voltage	220-240V~
Rated input frequency	50/60Hz
Fan load	180W /0.75A
Lighting load	100W
Battery	1 x 3V CR2032
Frequency	433.92MHz
Normal range of operation	Up to 10 metres

MODEL	
SKU	FRM86
Bar Code	9312699148354
TUN Code	(01)19312699148351

* The dimmer is only compatible with incandescent, halogen and Light Emitting Diode (LED) globes that are specifically marked as "dimmable". Achievable dimming quality may vary for different globes. See below for the dimmer's Load Compatibility Table:

Load Type for Dimmer	Load Compatibility
Incandescent globe	✓
240V halogen lamp	✓
Low voltage halogen with iron core transformer	✓
Dimmable LED lighting	✓
Compact Fluorescent Lamps (CFLs)	✗
Low voltage halogen with electronic transformer	✗
GU10 240V halogen down lights	✗
Linear fluorescent	✗

DIMMING FEATURE

The dimming quality achievable on a dimmable lamp may be limited by sophistication of the lamp technology. Within the limits of the lamp's inherent brightness range, the FRM86 allows for user to adjust and preset the minimum brightness to one of five levels to suit specific lamps and /or user preference.

**This product must be installed by a licensed electrician.
