DESCRIPTION

The LUC G series is a recessed inground LED luminaire. The modern design is small and discreet but bright and can therefore optimally illuminate and set the scene for walkways, gardens, and terraces. Directed the light upwards to create an atmospheric highlight on walls or sculptures. It blends flush into the ground and is simple, functional, and available in 3 sizes.

With an operating voltage of 8~26 volt AC/DC and a water-protected rating of IP65, it is a versatile and safe lighting solution for outdoor areas. Other fixtures in the LUC series can be combined to form a complete outdoor space solution. A 8 or 26 volt AC transformer is recommended to power up this fixture.

CATEGORIES

Inground Lights

USAGE

Outdoor Lighting, Trade Selection

VOLTAGE INPUT
