

## Zurich

4-in-1 thermal bathroom unit

- 2000W PTC heater that efficiently heats the air
- 35W ball bearing motor for excellent reliability
- Cooling fan function for warm weather
- Quality integrated tri-CCT (non-dimmable) LED panel provides efficient illumination
- Ideal for small to medium bathrooms
- 3-year in-home warranty for peace of mind
- Includes integrated draught stopper, 5-gang wall switch, 1.5m duct and grill outlet

### EFFICIENCIES

**Total System Efficiency** 65 lm/W

The performance of each component of a luminaire is demonstrated through its efficiencies, which together determine the total system efficiency of the product. The output of the LED chip is first multiplied by the optical and thermal efficiencies to calculate the Luminaire efficiency. However, this calculation does not consider the driver efficiency. To determine the overall efficiency of the system, the Luminaire efficiency must be multiplied by the driver efficiency, which accounts for all losses in the system.
