*Replacement wattages are approximates and are to be used as a guide only.

† Relates to LED life - actual life may vary depending on individual circumstances. Hours of life corresponds to approximately 6 hours of use per day.

Brilliant's MR16 & GU10 LED Globes are an excellent cost efficient and energy saving lighting option. Our 6 watt globes give an output of 480 to 540 lumens, with a 60 degree beam spread to light up your room. Available in either a soft and inviting warm white or crisp and clear cool white.

LED globes are an ideal re-ro-fit solution as they can consume up to 85% less power. With an average life of 10,000 hours, they are long lasting and save you money, because you will buy replacements less often. When turned on, LED's achieve full brightness in microseconds and radiate very little heat, so they do not cause damage to sensitive objects or fabrics.
