Brilliant's LED Globes are an excellent cost efficient and energy saving, lighting option. The new dimmable version is available in both MR16 and GU10 bases. The range is available in multiple wattages that have excellent lumen output. Each globe has a 40 degree beam spread to light up your room. Available in either a soft and inviting warm white or crisp and clear cool white.

LED globes are an ideal retro-fit solution as they are highly efficient. With an average life of 10,000 hours, they are long lasting and save you money, because you will buy replacements less often. When turned on, LED's achieve full brightness quickly.
