

MOON BEAM

LED ANTIQUE FILAMENT STYLE GLOBES

Suspension kits for illustrative purposes only.

240v	3W	4W	6W	2700K WARM WHITE	LED FILAMENT	B22	E27	E14		Lifespan: Up to 12,000 hours
	Candle	ST57	A60, G125							

This new form LED (Light-emitting diode) with modern high efficiency LED technology. A colour temp of 2700K ensures vintage filament style warm color. This style globe is a filament style LED and uses the latest technology. They produce as much light as a standard 25W incandescent globe and are fantastic for atmospheric lighting, in a multi-globe pendant light, as well as discreet lighting.

- A60:** Shaped like a classic globe and fits regular light fittings with 6 pieces of 37.5mm filament LED.
- G125:** Shaped like a traditional round globe and fits regular light fittings with 4 pieces of 41mm filament LED.
- ST57:** Shaped like the original Edison globe and fits regular light fitting with 4 pieces of 37.5mm filament LED.
- CANDLE:** Shaped like a classic candle globe and fits small screw light fittings with 2 pieces of 37.5mm filament LED.
