

The LED Technology

XL-LED Shoplighters

Crompton XL-LED Shoplighter has been uniquely designed and styled by Crompton Lighting as an energy saving retrofit fixture to enhance any existing or new installation that currently uses older metal halide technology.

Available in two versions of both Spot and Flood for optimum performance, the LED kit comes complete with pre-wired driver and housing making installation and replacement easy.

The XL-LED Shoplighter is available in two popular colour choices, 3000K and 4000K It is fully and easily adjustable. The new slimline housing is solid powder coated cast aluminium, incorporating a white coated tempered glass diffuser to ensure good aesthetic ceiling appearance.

Suitable for shops, restaurants, cafes and any retail or commercial area requiring a modern and stylish appearance to enhance product display or merchandise.
