

LUMA-LINE-2 LED Mounting Profile

Description

Introducing the LUMA-LINE-2 LED mounting profile system. The LUMA-LINE-2 is specifically designed for the Domus range of LED strip lighting. This aluminium mounting profile system incorporated extruded profile complete with opal colour PMMA diffuser. The key features of the LUMA-LINE-2 is the ability to not only conceal the LED strip lighting but also keep the strip lighting linear. Also, the LUMA-LINE-2 keeps LEDs free from foreign objects and vapours which may damage the LEDs. Another key point is the invisible screw mounting which is hidden with-in the profile for surface mounting applications but the LUMA-LINE-2 comes into its own as a continuous continuous wall up light and down light. The LUMA-LINE-2 can be used in sections to create a sleek look to any interior space or continues as a pelmet light. With the ability to also wire suspend makes this profile very adaptable. Applications include lounge rooms, lobbies, board rooms etc.

Specification Features

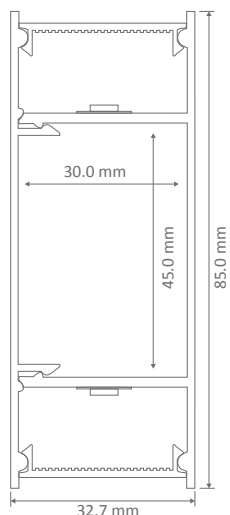

Installation:	Wall mounted or suspended
Material:	Extruded aluminium 6063
Finish:	Natural clear anodised
Diffuser:	Flat (PMMA) opal colour x 2
Length (mm):	2500mm continuous*
Size (mm):	Profile (W) 32.7mm (H) 85mm
