

ME-SQUARE

Steplight

Description

The ME-Square is a unique recessed wall light offering not only a modern take on traditional halogen style lights but also boosts outstanding performance. Made from solid 6063 grade aluminium and machined to perfection, coupled with a titanium anodise process gives the ME-Square its edge over the others. High intensity downward lighting is provided by CREE LED a well-known and recognised name in the LED world. Part of its beauty rests in the fact that the same fixture can be installed throughout your home and then continue out into the garden thanks to its High IP rating and multiple mounting options.

Specification Features
