

EV-DIMMER

LED Downlights

Technical Data Sheet

DESCRIPTION

The Domus LED dimmer is a dedicated LED dimmer designed specifically to achieve smooth, low range and flicker free dimming with the Domus range of dimmable LED products, including the downlight range.

Incorporating a tuning function, that allows the electrical contractor to dial out any low level flickering (e.g 5%, 10%, 15%, etc). Fits all standard switch plates. Fully Australian approved and complies with Australian and International EMC standards. Domus offers a three (3) year replacement warranty for the **EV-DIMMER**.

SPECIFICATION FEATURES

- Operating Range: 240V AC, 50Hz
- Power Rating: 5-200W
- Thermal Overload Protection: Yes
- Short Circuit Protection: Yes
- Operating Temperature: 0-45°C
- Manual Tuning: Yes
- Switch Plate Suitability: All leading brand suitability

Please note minimum load is 5W and maximum load is 200W.

Model	Wattage	Maximum Number of Fittings
Deco 8	8W	25
Deco 13 / Deco 13T	13W	15
Deco 20	20W	10
Deco 28	28W	7
DLK10	10W	20
DLK13	13W	15
Splash	13W	15
Deep 75	10W	20
Deep 90	13W	15
Retro 10	10W	20
Neo 13	13W	15
Neo 25	25W	8
Neo 35	35W	5
Scoop 13	13W	15
Scoop 25	25W	8

Mixed load types are permitted.

Extensive tests have been performed with the Domus range of LED products.

In theory, the Domus dedicated LED dimmer will operate any mains power dimmable LED power supply from other brands, however, Domus cannot guarantee the same dimming results.
