

SCOOP13

Adjustable Downlight

Description

Introducing the SCOOP-13 to Evergreen range of LED down lights. The SCOOP-13 is the first in the line-up of single point COB adjustable LED down lights. Features include satin white finished frame and glass diffuser. Light is provided from a single point COB high performing LED with a perfectly matched 60° optical reflector. The reflector behaves in much the same way as a standard 50W halogen lamp does with the favourable scallop style illumination. Added benefits of up to 45° tilt function and fully mains dimmable LED driver makes this a perfect alternative to halogen and CFL style down lights.
