

EVCHAM11

Order Code: **20120**

Product Code: **EVCHAM11 - Constant Voltage**

Description: Wall mounted PWM dimmer designed for Constant Voltage LED applications.

Data: The EVCHAM11 is an intelligent dimmer specially designed for LED lighting. It uses the most advanced PWM (pulse width modulation) digital brightness adjusting technology that enables you to adjust the brightness from 0% to 100% using the knob on the wall plate or via the supplied IR remote control. This modern style switch plate can be semi-recessed or surface mounted using the supplied mounting block.

Remote Functions: 0-100% dimming (256 levels) soft turn on and off, four preset brightness levels (25%,50%,75% and 100%), four user programmable brightness options, delay function set at 30 seconds to exit the room with soft dimming.

Specification: 12V DC input, 1 x 6A 12V 72W max, 24V DC input, 1 x 6A 24V DC 144W max.

Size: (L) 87mm x (W) 87mm x (H) 6mm (semi-recessed mounted)
 (L) 87mm x (W) 87mm x (H) 42mm (surface mounted)

Requires: Constant Voltage 12-24V DC LED driver located in the power supply section of the catalogue.
