

EV-DEEP-90

deepset downlight

Technical data sheet

DESCRIPTION

The NEW DEEP range of LED down lights are designed for retro fit or new installations. Using a contemporary satin white deepset fixed frame this downlight complements most modern installations.

The DEEP incorporates the latest Sharp COB (Chip on board) which is then matched with a specifically designed heat sink to disburse heat from the LED. All this is then perfectly matched with a fully mains dimmable LED driver complete with a flex and plug for easy installation.
