# 3 Light Cast Fitter™

When fitted to a Hunter ceiling fan, this light kit will add approximately 180mm to the overall height dimensions of the ceiling fan, depending on the angle of the heads.

This fan light connects to the ceiling fan using the two keyhole slots on top of the light, which connect to corresponding screw holes in the ceiling fan, ensuring a solid connection designed to minimise wobble of the light kit. NB: The threaded rod merely acts as a cable carrier.
