

# LED Globes

## BOSS GU10 Mini 5000K

The Boss Mini GU10 LED globe is suitable for most general purpose lighting environments and replaces existing 50W halogen globes in down light frames. Replacing the globes is easy, as it only requires swapping out existing globes as you would with a standard halogen. The COB LED design makes the Boss Mini GU10 look identical to 50W halogen globes, seamlessly integrating throughout your household. The Boss Mini GU10 is also a replacement globe for the Tetra Light and Gyro Light series of exhaust fans.

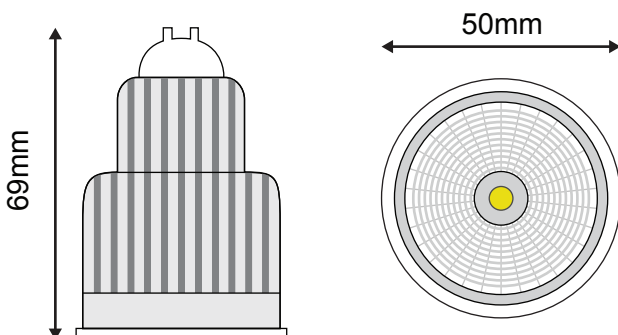

### FEATURES

- /// 3 year replacement warranty
- /// Advanced heat sink diffusion
- /// Advanced optic lens technology
- /// Non dimmable
- /// Long life energy saving LED technology
